UTOPIA GUESTHOUSE

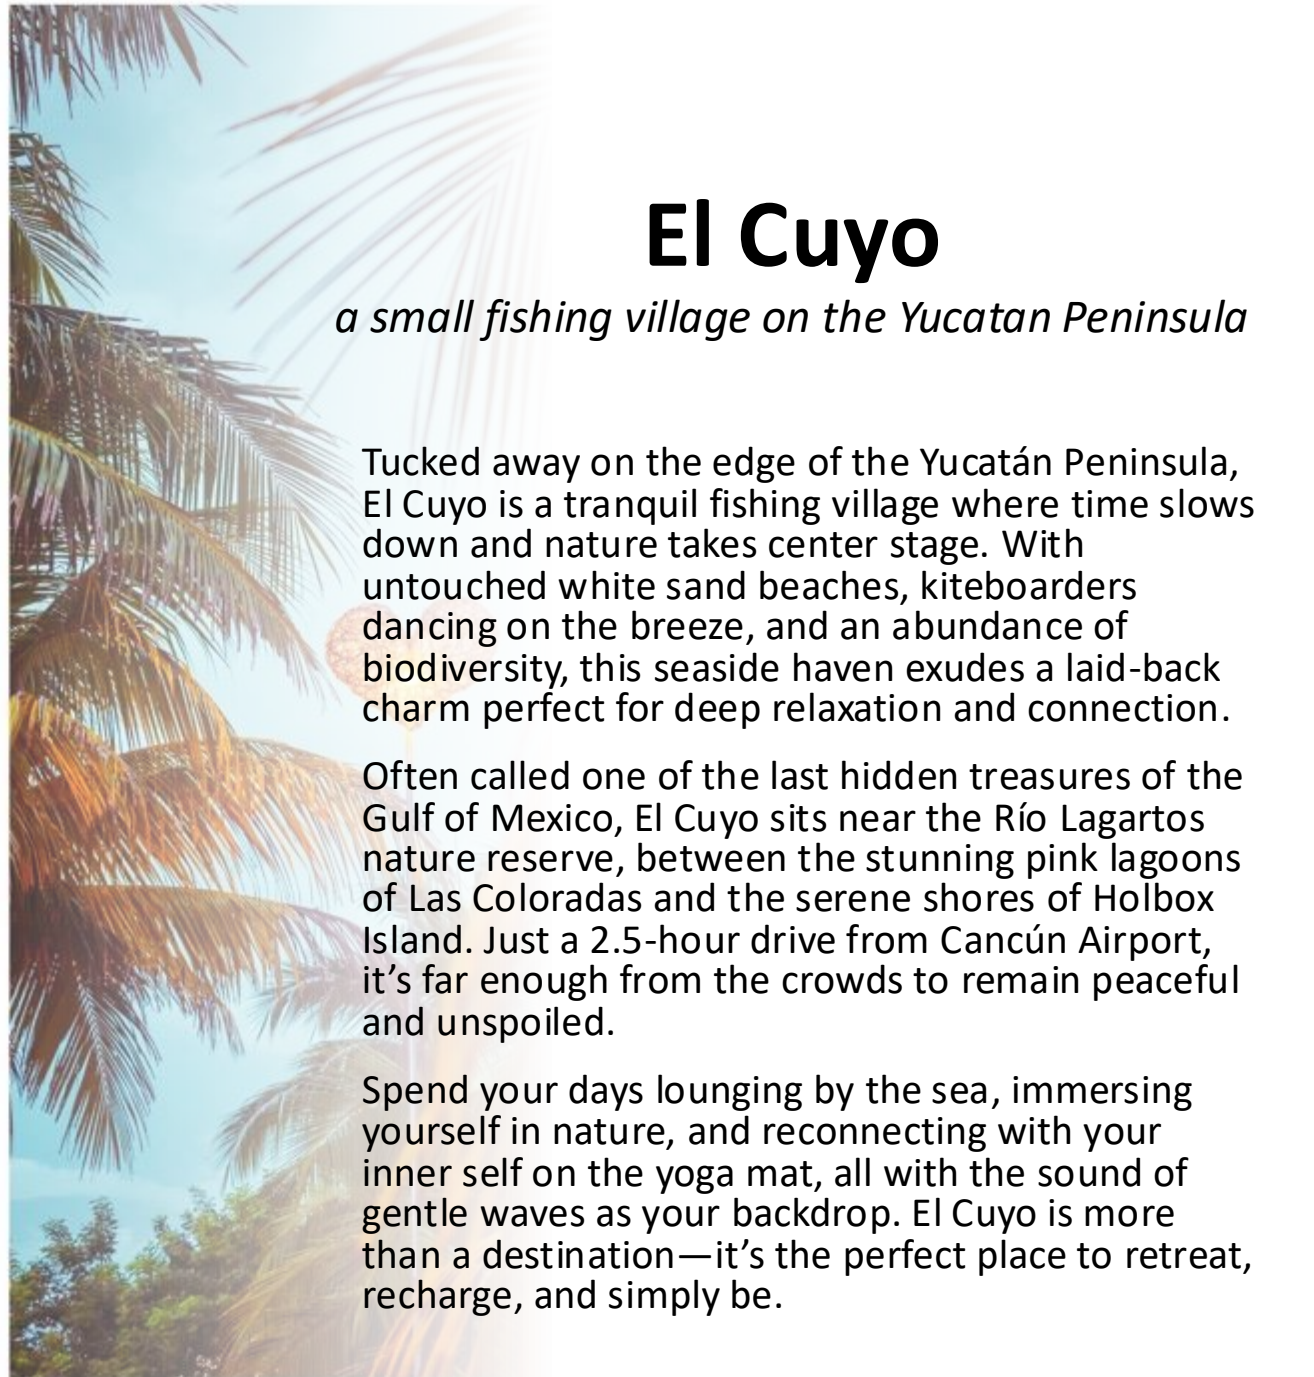

Your private beach house right on the water ...

Nestled right on the shore, this spacious beach house is an ideal sanctuary for a weeklong retreat—perfect for a gathering of friends, couples, or extended family. With the ocean as your backyard, you can step outside and feel the sand between your toes in an instant.

This thoughtfully designed home features 7 comfortable bedrooms, 3 full shared bathroom facilities (+ a double-sink wash area + an outdoor shower)

The heart of the home is its open and welcoming living and dining areas, designed for both relaxation and community connection. Step onto the front porch for a peaceful morning coffee or unwind on the beachfront hammock, where the rhythm of the waves sets the perfect mood for reflection.

El Cuyo

a small fishing village on the Yucatan Peninsula

Tucked away on the edge of the Yucatán Peninsula, El Cuyo is a tranquil fishing village where time slows down and nature takes center stage. With untouched white sand beaches, kiteboarders dancing on the breeze, and an abundance of biodiversity, this seaside haven exudes a laid-back charm perfect for deep relaxation and connection.

Often called one of the last hidden treasures of the Gulf of Mexico, El Cuyo sits near the Río Lagartos nature reserve, between the stunning pink lagoons of Las Coloradas and the serene shores of Holbox Island. Just a 2.5-hour drive from Cancún Airport, it's far enough from the crowds to remain peaceful and unspoiled.

Spend your days lounging by the sea, immersing yourself in nature, and reconnecting with your inner self on the yoga mat, all with the sound of gentle waves as your backdrop. El Cuyo is more than a destination—it's the perfect place to retreat, recharge, and simply be.

Yoga & Mindful Movement

Our stunning open-air yoga studio sits on a second-story terrace with breathtaking ocean views, creating the perfect sanctuary for your practice. Equipped with all mats and props, this serene space invites you to move, breathe, and restore with the rhythm of the sea.

- Yoga Vinyasa Flow / Hatha
- Yin & Restorative Yoga
- Meditation & Breathwork

- Yoga Nidra
- Pilates-Yoga Fusion
- Barre

Each session is designed to nourish your body, mind, and spirit, ensuring you leave feeling balanced and refreshed, with hands on adjustments, essential oils, curated music, inspirational readings, and more.

More About Me

- *Madison* -

I've been teaching yoga for over 9 years and leading retreats for the past 5. I left my past career as a television producer and am excited to gear those organizational skills towards curating meaningful retreat experiences !

I was born & raised in Toronto, Canada, where I still live and teach Yoga, Pilates, along with other Mindful Movement modalities. In my classes you can expect to cultivate a deep connection between breath, body, and mind, through intentional movement as well as dedicated stillness. I will encourage you to work hard, push boundaries, while maintaining a connection to your body's individual needs, creating a safe and supportive environment.

As a teacher, I love combining creative sequences and curated music playlists, with a spirit of playfulness and a dose of inspiration, to help deepen one's practice. I offer one-on-one attention, modifications, along with hands-on adjustments. I also aim to weave in deeper themes that help focus our practice. I believe that yoga is about calming the mind and nervous system, listening to the breath, freeing the body, and connecting with a higher level of consciousness on the mat, so that we can translate those benefits to life off the mat.
